Please complete the below organizational information.

Complete Legal Name of Organization Organization Website URL, if none,  
state "Not Applicable"

Current Number of Customers Please list the Countries in which your organization does business

---

Please complete the below information regarding Certification body (CB) CB key locations (IAF/ILAC A5), subcontractor key locations (IAF/ILAC A5 and IAF MD23) and subcontractors (IAF MD23)

Locations are defined as follows:

**CB Key Location:** Entities performing and/or managing key management system certification activities, on behalf of accredited certification bodies, which are wholly or partly owned or employed by the CB.

**Subcontractor Key Location:** Entities performing and/or managing key management system certification activities, on behalf of accredited certification bodies, which are not wholly or partly owned or employed by the CB.

**Subcontractor:** Entities performing and/or managing processes related to management system activities, on behalf of accredited certification bodies, which are not wholly or partly owned or employed by the CB (processes include; marketing, communications, outreach, etc. This list is not all-inclusive; any non-key activity related to the accredited CB's certification program is applicable.).

#### Organization Verification

Power Generation and Electric Power Transactions  
General Manufacturing (physical or chemical transformation of materials or substances into new products)  
Oil and Gas Exploration, Extraction, Production and Refining, and pipeline distribution, including Petrochemicals  
Metals Production  
Aluminum Production  
Mining and Mineral Production  
Pulp, Paper and Print  
Chemical Production  
Carbon Capture Storage  
Transport  
Waste handling and disposal  
Agriculture, Forestry and Other Land Use (AFOLU)  
General (Building Services, Facilities Management, Education, Hospitals, etc.)

#### Project Validation and Verification

Energy Industries (renewable/non-renewable sources)  
Energy Distribution  
Energy Demand  
Manufacturing Industries  
Chemical Industry  
Construction  
Transport  
Mining/Mineral Production  
Metal Production  
Fugitive Emissions from Fuels( solid, oil and gas)

Please indicate the main technical areas and technical areas you are requesting by clicking on the corresponding box in the below fields.

Please note: CBs accredited for ISO 13485:2016 certification are subject to yearly on-site office and witness assessments. IAS requires at least one audit per Medical Device Main Technical Area to be witnessed on-site by the IAS Assessment team prior to adding this discipline to the scope of accreditation.

Non-Active Medical Devices

General non-active, non-implantable medical devices  
Non-active implants  
Devices for wound care  
Non-active dental devices and accessories  
Non-active medical devices other than specified above

Active Medical Devices (Non-Implantable)

General active medical devices  
Devices for imaging  
Monitoring devices  
Devices for radiation therapy and thermo therapy  
Active (non-implantable) medical devices other than specified above

Active Implantable Medical Devices

General active implantable medical devices  
Implantable medical devices other than specified above

In Vitro Diagnostic Medical Devices (IVD)

Reagents and reagent products, calibrators and control materials for: Clinical Chemistry, Immunochemistry (Immunology), Haematology/Haemostasis/Immunohematology, Microbiology, Infectious Immunology, Histology/Cytology, Genetic Testing  
In Vitro Diagnostic Instruments and software  
IVD medical devices other than specified above

Sterilization Methods for Medical Devices

Ethylene oxide gas sterilization (EOG)  
Moist heat  
Aseptic processing  
Radiation sterilization (e.g. gamma, x-ray, electron beam)  
Sterilization method other than specified above

Devices incorporating/utilizing specific substances/technologies

Medical devices incorporating medicinal substances  
Medical devices utilizing tissues of animal origin  
Medical devices incorporating derivatives of human blood  
Medical devices utilizing micromechanics  
Medical devices utilizing nanomaterials  
Medical devices utilizing biological active coatings and/or materials or being wholly or mainly absorbed  
Medical devices incorporating or utilizing specific substances/technologies/elements, other than specified above

Parts or Services

Raw materials	Components	Subassemblies
Calibration services	Distribution services	Maintenance services
Transportation services	Other services

## AS9100 - Aerospace Quality Management Systems (AQMS)

Please note the following critical information:

1. Certification Bodies applying for AQMS scope extensions must already be accredited to ISO/IEC 17021-1 for ISO 9001 with IAF code 21 (aerospace), for at least 12 months prior to applying for this expansion.
2. Certification Bodies must demonstrate competence/compliance for ISO/IEC 17021-1, AS9104/1, AS9104/2 and AS9101.
3. For AQMS specific witnessing requirements, please refer to Section 10 of the IAS Accreditation Policy for AQMSCB available on the IAS website.

For Reference, AS9100 Series nomenclature is as follows:

- AS 9104/1 – Requirements for Aviation, Space, and Defense Quality Management System Certification Programs;
- AS 9104/2 Requirements for Oversight of Aerospace Quality Management System Registration/ Certification Programs
- AS 9104/3 Requirements for Aerospace Auditor Competency and Training Courses
- AS 9100 Quality Management Systems – Requirements for Aviation, Space and Defense Organizations
- AS 9110 Quality Management Systems – Requirements for Aviation Maintenance Organizations
- AS 9120 Quality Management Systems – Requirements for Aviation, Space and Defense Distributors
- AS 9101 Quality Management Systems – Audit Requirements for Aviation, Space, and Defense Organizations

Certification Bodies can choose one or multiple of the below standards.

Please indicate if you would like to apply for this discipline by clicking the corresponding box(s) in the below field.
